EDUCATION

Visvesvaraya National Institute of Technology, Nagpur
M.Sc. Chemistry 2nd yr.
2024-TILL DATE
CGPA- 7.73/10 3RD SEM

Hansraj College, University of Delhi, New Delhi
B.Sc. Life Science
2020-23
CGPA- 8.18/10

National Institute of Open Schooling, New Delhi
10+2 Mathematics
2022-23
PERCENTAGE- 56.0

Pt. Nagesh Dutt Public School, Uttar Pradesh (10+2)
Central Board of Secondary Education
2018-20
PERCENTAGE- 88.6

Geeta International Public School, Uttar Pradesh (10th)
Central Board of Secondary Education
2016-18
PERCENTAGE- 82.0

LANGUAGES

- English
- Hindi

PROFILE

Driven by a passion for innovation and scientific discovery, I am actively seeking opportunities to apply my knowledge and skills in organic synthesis to contribute to groundbreaking research or industrial projects. I am eager to join a dynamic team where I can continue learning and growing as a chemist while making meaningful contributions to the field.

Computer Skills: MS Word, MS Excel, MS PowerPoint, OriginPro, ChemDraw, etc.
Technical Skills: NMR Sampling, Column Chromatography, TLC, UV-Visible Spectroscopy (Shimadzu 1800), FT-IR, TG-DTA, DSC, UV-DRS, XRD, Sonicator, Rotary Evaporator.
Coursework: Organic Synthesis, Stereoselective Synthesis, Analytical Chemistry, Spectroscopic Techniques, Inorganic Chemistry, Physical Chemistry, etc.

PUBLICATION

A. Mandal, R. Bano, S. Chattopadhyay, R. Banerjee, D. Borah, **N. Gupta**, M. Shanmugam, D. Maiti, "Engineering Isoquinoline-derived Directing Template for Distal C5–H Functionalization of Bicyclic Aza-arenes" *Angew. Chem. Int. Ed.* **2026**, *65*, e23983

WORK EXPERIENCE

Winter @Intern IIT Bhubaneswar — Dec 2024-25

Dr. Tabrez Khan [*Associate Professor, Dept. of Chemistry, School of Basic Sciences, IIT Bhubaneswar*]
Topic- Synthesis of Strained-Ring-Based Redox-Active Oxime Ester.

Summer @Intern IIT Bombay — May 2025- July 2025

Prof. Debabrata Maiti [*Associate Professor, Dept. of Chemistry, Indian Institute of Technology (IIT) Bombay*]
Topic – Distal C-H Alkynylation of Benzo-fused Azines.

M.Sc. Thesis Project — August 2025- till date

Dr. Umesh Pratap [*Associate Professor, Dept. of Chemistry, Visvesvaraya National Institute of Technology (VNIT), Nagpur, India*]
Thesis Title: Design and Development of Transition Metal@COF as a Robust Heterogeneous Catalyst For C-H Bond Functionalization.

ACHIVEMENTS

- IIT JAM Qualified and got admission into National Institute of Technology, Nagpur — 2024
- Shortlisted for an interview at IISER TIRUPATI for the Int. PhD program. — 2024
- Selected for Summer Research Fellowship for 2025 from the Indian Academy of Science, IISC, Bangalore (IASC-INSA-NASI, Summer Research fellowship 2025, IISC, Bangalore) — 2025
- Selected in Refresher & Preparative Winter School Program (RPWSM), IISER TVM — 2025

AREA OF INTEREST

- Currently, I am working on COF (Covalent Organic Framework) and its application to C-H activation through organic transformations during my M.Sc. Project work, including computational studies. I aim to enhance my skills in designing complex organic molecules that benefit humankind.
- In addition, I want to work with COF (Covalent Organic Framework), C-H Activation, biologically active compounds, organic synthesis, and new synthetic techniques using the principles of green chemistry, which includes metal-free synthesis and new methods for organic synthesis and their computational studies.

REFRENCES

- Dr. Umesh R. Pratap *(Associate Professor, Department of Chemistry)*
  Project Supervisor
  Visvesvaraya National Institute of Technology (VNIT), Nagpur, Maharashtra, India- 440010
  Email: upratap@chm.vnit.ac.in
  Phone No: +91-0712-2801773
- Prof. Debabrata Maiti *(Professor, Department of Chemistry)*
  Indian Institute of Technology (IIT Bombay), Mumbai, Maharashtra, India-400076
  Email-dmaiti@iitb.ac.in
  Phone No: 022-2576-7155
- Prof. Brijesh Rathi (*Associate Professor, Department of Chemistry)*
  Hansraj College, University of Delhi, New Delhi, India- 110007
  Email: brijeshrathi@hrc.du.ac.in
  Phone No: +91-11-27667458
